

MATISSE QUATTRO ACTION

4 MOTOR

- Elegantly designed, the chair features four motors for independent operation of the backrest and the leg rest sections, as well as powered lumbar adjustment and powered headrest adjustment
- Built-in USB port in the hand control to charge a mobile phone
- Four motor allows the user an infinite number of positioning options to find the best position for them
- Larger seat size and higher weight capacity make this recliner very suitable for taller as well as larger users
